

Please respect our policy of  
**NO PHOTOGRAPHY OR RECORDING**  
**DURING PERFORMANCES**

You may only record or take pictures during our awards.  
Points may be deducted from your studio's dance routine.

THANK YOU!!

To ensure the safety and privacy of all our dancers, **Dance Showcase USA strictly prohibits any form of photography or recording during performances.** This policy is in place to protect our children in today's digital age, where unauthorized images or videos could be misused on platforms like YouTube, Facebook, or Instagram, etc. This measure aligns with requests from teachers and parents to safeguard our performers.

**Enforcement and Penalties:**

- If anyone is observed using a camera or recording device during a performance, they will be asked to stop immediately.
- The individual's associated studio director will be notified.
- The routine may receive an automatic 5-point deduction from the total score if the individual is affiliated with that studio.
- If the individual is not associated with any studio, they will be asked to leave the premises.

Please note that only the professional photography and videography company selected by Dance Showcase USA is permitted to capture performances. We do not receive any monetary compensation from their sales; their presence is solely a courtesy to our participants.

We understand that some may believe this policy exists to promote the sale of professional videos and photos. However, our primary concern is the safety and privacy of our dancers.

Thank you for your understanding and cooperation in maintaining a secure environment for all performers.
